

# LOOKING FOR CONCUSSION / MTBI PATIENTS... SOCIAL IMPACTS STUDY

## What are we doing?

Researchers from the University of Colorado Boulder are investigating the social impacts of concussion and brain injury. We want to learn how individuals navigate their recoveries, and why some people experience more difficulties returning to work/learn/play than others. We hope that in the future we can develop interventions and programs that can help patients get *all* of the services and support they need to recover.

University of Colorado  
Boulder

Have you been  
diagnosed with a  
concussion?

---

Have you had a  
concussion or  
brain injury?

---

Do you want to  
share your  
experiences with  
a researcher and  
help future  
patients?
